

**THE BEST HOUSEWARE DEAL  
YOU WILL EVER FIND!**

# COMPANY PROFILE

## ABOUT US

RFL Houseware is a sister concern of PRAN-RFL Group. The company was founded by the late Major General (Retd.) Amjad Khan Chowdhury in 1981 with a vision to help farmers by facilitating irrigation and ensuring access to drinking water through water pumps and tube wells.

Later, the company expanded into various categories and began its plastics line in 2003. The factory sites are located in company-owned industrial parks covering 300,000 square meters, including a built-up area of 200,000 square meters. These sites are fully equipped with state-of-the-art injection, compression, and blow molding machines, offering a conversion capacity of over 5,000 tons per month.

RFL Houseware currently operates 500 machines using 4,000 molds, and has achieved a 30% growth rate over the past year, supported by its in-house tooling facilities. The brand's growth is driven by its expansion and the availability of innovative, affordable solutions for household durables and utensils.
